PROJECT

SMART HIRE

Developed a web application that uses NLP and machine learning to automatically screen resumes and match candidates to job roles based on skill relevance and experience. Enhances recruitment efficiency by ranking applicants using AI-driven scoring.

Front-end: HTML, CSS

Back-end: Django, Python

AI/ML: Resume parsing (spaCy), Skill matching (TF-IDF, scikit-learn)

ADMIN GUARD

AdminGuard is a secure and user-friendly web-based exit management system developed using the MERN stack. It allows students to request exit permissions, enables HODs to approve or reject requests, and allows security personnel to verify approvals via QR code scanning. The system also includes features like fee notifications, vehicle tracking, and notice broadcasts to improve campus safety and administrative efficiency..

INTERNSHIP

- Server Administrator Intern at Clado Solutions , Ernakulam

CERTIFICATES

- Cloud Computing — NPTEL
- AI - Real World Applications
- Great Learning Academy – Prompt Engineering for ChatGPT

EXTRACURRICULAR

- National Service Scheme Volunteer.
